A youth who began work for him ten years ago, on six dollars a week, heeded his employer's advice, and proving industrious and intelligent his wages were increased from time to time, till a short time ago he became foreman of a department at \$25 per week. A VOLUNTEER STATEMENT.

The writer of this puragraph once had an elder and only brother. Brought up together, we were almost inseparable, hopeful and ambitious. Exposure planted the seeds of Consumption in the elder, and in a few weeks, in the month of May, "good store of flowers were stuck around about his winding-sheet." Every attention and every remedy that love could give or obtain were unavailing. Since that said day, I have learned, through the most trustworthy authority and from experience in its use, that a real remedy now exists; that of Dr. Pierce, called the "Golden Medical Discovery." A thousand pities that it was not discovered ages ago, but how thankful the present generation should be that it can now avail. itself of so potent a remedy—oct—d&wlw.

WOMAN AS A MARTYR. WOMAN AS A MARTYR.

WOMAN AS A MARTYR.

History records the sufferings of countless martyrs, and we read of them with wonder and sympathy. But there are living to-day in our midst thousands of other martyrs who have far stronger claims upon our consideration—women who are sufferers from those allments peculiar to their say, our wives, daughters and slsters, perhaps, whose lives are an unremitting round of suffering. "Is there no relief"? they cry. Yes, there is; Ir. Pierce's Favorits Prescription will remove that "dragging-lown" feeling, will benish that backache, will restore every function to its normal condition. To all suffering from female complaints—and their name is legion—we say: get the "Prescription" at once; it will be worth far more than its weight in gold to you.

The opening of the Railroad Men's Bullding at Madison avenue and Forty-fifth street, New York, with appropriate coro-monies, was an occasion of much interest, This building has been crected by Cornelius Vanderbilt, at a cost of about \$100,000,

for the use of the Railroad Branch of the Young Men's Christian Association. It is designed to be a "place where railroad men Stamp may spend pleasant hours," and certainty in its construction and appointments it is well calculated to realize the object sought. ું તા ું Ground was broken September 20, 1886. MR. VANDERBILLT'S LAVISH EXPENDIURE.

The building is the outcome of what Cornelius Vanderbilt saw that paired dinen meeded, during his ten years of service as chairman of 'the Committee of Management of the Railroad Branch of the Young Men's Christian Association. It certainly dogs credit both to his head ard to his heart, and in plar ming and establishing it he has sed an example to the rich men of his day and generation which mey result in beatowing upon the men of other roads and other cities like blessings. Originally the scheme involved an expenditure of only \$35,000, but Mr. Vanderbilt found that he could not auccessfully carry out, his purposes for that sum, and he therefore directed his architects to improved the plans, without reference to former figures. It is difficult to see which the building and its appointments can be further improved. It appears in all respects to be perfect. Besides the regular uses of the building, which have been indicated, it is intended to give entertainents there in the shape of concerts, lectures and the like, every month. Lectures will be delivered by Rev. Dr. J. P. Newmap. Wallace Bruce, Dr. A. I. Roekwell, and others. In addition to these there will be "ora tional takes by practical men." William Katte, chief engineer of the New York Central Railroad, will tell "How Railroads in the Railroad, will give "Railroad Raministences." In the classes to be opined instruction will be given if "Firs. Ald to the Injured," a practical, subject for rai road men. Diplomas will be issued to those who pass successful.
